DETAILED ACTION

The following is a response to the amendment received on March 3, 2004 which has been entered.

Response to Amendment

Claims 1-7, 8, 9, 11-15, 17, 19 and 20 are pending in the application. Claims 7, 10, 16 and 18 have been cancelled.

-The 102(b) rejection of claims 1-6, 11-15, 19 and 20 has been withdrawn due to applicant amending claims 1 and 11 with cancelled claims 7 and 16 which were previously indicated as having allowable subject matter. Claims 1 and 11 as currently amended is patentable over the prior art used in the rejection (Japanese patent '890).

Allowable Subject Matter

Claims 1-7, 8, 9, 11-15, 17, 19 and 20 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(As to claim 1) a vehicle control apparatus having a driven device driven by a drive power source, a system controlling rotating and stopping of the drive power source wherein a state where the system is not allowed to stop the power source includes a state where no request for driving the vehicle by driving force from the power source and there is a request to operate the power source from a system other than an economy run system, and a controller determines whether the driven device should reduce load on the power source based on whether the driver of the vehicle is intending to stop.

Art Unit: 3681

-(As to claim 11) a vehicle control method for a vehicle having a drive power source, a driven device, and a system for running and stopping the power source wherein a state where the system is not allowed to stop the power source includes a state where no request for driving the vehicle by driving force from the power source and there is a request to operate the power source from a system other than an economy run system, and determining whether the driven device should reduce load on the power source based on whether the driver of the vehicle is intending to stop.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
